

Stratom's skilled operations and engineering specialists bring integrated solutions and products to government, commercial, and global clients. We are a Service-Disabled Veteran-Owned Small Business, founded by a former Marine Corps Officer. Our core team consists of individuals with deep knowledge and experience that spans the spectrum of engineering and operational capabilities. Our client base ranges from Fortune 500 companies to entrepreneurial startup companies.

Missions

Stratom's engineering and operations team provides system development and integration in the following mission environments:

- Unmanned Ground Vehicles (UGV)
 - Payload Integration, Manipulation, Tool Development, Sensor and System Integration, UGV Platform Development
- Intelligence, Surveillance, and Reconnaissance
 - Custom Handheld / Computing Devices
 - UGV Development and Sensor Integration
- Sensor Integration
 - Sensor Placement / Retrieval
 - Unattended Ground Sensors Integration and Placement
 - Explosive and Chemical Detection Integration
- Security
 - UGVs, Payload Integration, Sensor Integration
- Command and Control
 - Custom Handheld Devices
 - Custom Computing / Storage / Network Devices

Services and Skills

- Engineering Services
- Systems Engineering
- Systems Integration
- Robotics, Automation, Manipulation
- Sensor Integration
- Hardware/Software Engineering
- Custom Electronics, Networking, and Computing Solutions
- Mechanical and Electrical Design
- Enclosure Design
- Circuit and PCBA Design
- Firmware Development
- Modularity, Customization, and Cost Avoidance
- Design for Manufacturer and Assembly
- Modeling and Simulation
- Finite Element Analysis
- Program and Project Management
- Prototype Development
- Manufacturing
- Logistics / Supply Chain
- Professional and Technical Services
